

Company Profile

Transparent procurement, verified sourcing, and disciplined quality control from India.

Who We Are

India Supply Solutions is a procurement and market-access business built around transparency, supplier verification, mandatory pre-shipment inspection, and long-term accountability. We support global buyers sourcing from India, Indian manufacturers seeking international markets, and international manufacturers evaluating commercial opportunities in India.

Our Core Promise

- Transparent commercial logic and disclosed commissions where applicable.
- Mandatory quality inspection before shipment.
- No counterfeit, piracy, unauthorized branded copies, or deliberately substandard sourcing.
- No undisclosed material, grade, construction, or quality substitution.
- Supplier capability and documentation reviewed before recommendation.
- Problems communicated early; credibility protected over short-term margin.

How We Work

1. Requirement	Buyer product, specification, quantity, packing, destination, and standards are clarified.
2. Source	Suitable Indian manufacturers or suppliers are identified.
3. Verify	Capability, documentation, communication, and commercial suitability are reviewed.
4. Commercial Review	Offers are normalized so pricing and commercial terms can be compared clearly.
5. Inspect	A product-appropriate pre-shipment quality gate is mandatory.
6. Coordinate	Approved supply, documentation, and agreed logistics support are coordinated.

QUALITY IS NON-NEGOTIABLE

If a shipment materially fails the agreed quality gate, commercial pressure does not turn failure into acceptance.

Product Coverage

A broad sourcing network, applied only where supplier capability and buyer requirements can be verified.

● Rice, Food & Agri Products	● Engineering Components
● Metals & Specialty Alloys	● Industrial Machinery & MRO
● Hardware & Building Products	● Auto, Tractor & Mobility
● Electrical & Utility Products	● Packaging & Industrial Consumables
● Textiles & Institutional Supply	● Homeware, Furniture & Handicrafts
● Ceramics, Sanitaryware & Natural Stone	● Rubber & Plastics
● Leather & Footwear	● Paper, Stationery & Eco Products

Africa Supply Program

For eligible transactions under the Africa Supply Program, India Supply Solutions intends to operate with a clearly disclosed 1% sourcing commission. Product price, mandatory inspection, and applicable third-party costs remain transaction-specific and are identified separately where relevant.

Manufacturer Partnerships

We welcome capable Indian manufacturers seeking international buyers and international manufacturers seeking market entry, buyer discovery, or channel-development support in India. Partnership relationships must never silently override buyer requirements or create undisclosed conflicts.

Quality & Integrity Standard

NO INSPECTION. NO SHIPMENT.

We would rather lose an order than lose buyer trust. Any material deviation, substitution, or quality concern must be disclosed, evaluated, and approved before shipment.
